Zhu, H. 57

Subject Index

Acid deposition, indoor pollution inside museums, nitrous acid, nitric acid, diffusion techniques, 211

Acute lymphatic leukemia, radiobiology, cancer epidemiology, nuclear power, nuclear fuel, nuclear weapons, pre-natal exposures, 13

Age groups, blood, urine, cadmium, Inuit, Canada, smoking, 167

Air pollution, chronic obstructive pulmonary disease, coal combustion, trend surface, sign test, 57

Air pollution, peak flow, respiratory disease, longitudinal studies, diaries, 69

Allotments, cadmium, exposure estimation, health risk assessment, human nutrition, soil contamination, 281

Amazon deforestation, hydrochemistry, modelling, nutrient, climate streams, 225

Andiometric, non-insulin dependent diabetes, noise induced hearing loss, occupational noise exposure, epidemiology, 155

Atomic absorption spectrometry, trace metals, bivalves, emission spectrometry, *Macoma balthica*, Westerschelde estuary, 255

Bayes' Theorem, cancer cluster, screening, 187

Biogas emissions, landfill emissions, gaseous pollutants, 201

Bivalves, trace metals, atomic absorption spectrometry, emission spectrometry, *Macoma balthica*, Westerschelde estuary, 255

Blood, urine, cadmium, Inuit, Canada, age groups, smoking, 167

Cadmium, allotments, exposure estimation, health risk assessment, human nutrition, soil contamination, 281

Cadmium, blood, urine, Inuit, Canada, age groups, smoking, 167

Canada, blood, urine, cadmium, Inuit, age groups, smoking, 167

Cancer, chemical, mortality, epidemiology, ecological study, 139

Cancer cluster, screening, Bayes' Theorem, 187

Cancer epidemiology, acute lymphatic leukemia, radiobiology, nuclear power, nuclear fuel, nuclear weapons, pre-natal exposures, 13

Cancer risk, ionizing radiation, uncertainties, molecular modeling, 1

Ceramics, natural radioactivity, construction materials, radium equivalent activity, hazard indices, 243

Chemical, cancer, mortality, epidemiology, ecological study, 139

Childhood leukaemia, cluster, nuclear installation, radiation, 9

Childhood leukemia, environmental exposure, epidemiology methods, nuclear reactors, radiation, 37

Chloramination bladder cancer, chlorination, ozonation, colon cancer serum lipids, epidemiology, randomized trial, 91

Chlorination, ozonation, chloramination bladder cancer, colon cancer serum lipids, epidemiology, randomized trial, 91

Chronic obstructive pulmonary disease, air pollution, coal combustion, trend surface, sign test, 57

Climate streams, hydrochemistry, Amazon deforestation, modelling, nutrient, 225

Cluster, childhood leukaemia, nuclear installation, radiation, 9

Coal combustion, air pollution, chronic obstructive pulmonary disease, trend surface, sign test, 57

Colon cancer serum lipids, chlorination, ozonation, chloramination bladder cancer, epidemiology, randomized trial, 91
Construction materials, natural radioactivity, ceramics, radium equivalent activity, hazard indices, 243

Diaries, peak flow, air pollution, respiratory disease, longitudinal studies, 69
Diffusion techniques, acid deposition, indoor pollution inside museums, nitrous acid, nitric acid, 211
Disease clusters, time-space clusters, epidemiology, health policy, statistical power, simulation, 173

Ecological study, chemical, cancer, mortality, epidemiology, 139
Emission spectrometry, trace metals, bivalves, atomic absorption spectrometry, *Macoma balthica*, Westerschelde estuary, 255
Environmental exposure, childhood leukemia, epidemiology methods, nuclear reactors, radiation, 37
Epidemiology, time-space clusters, disease clusters, health policy, statistical power, simulation, 173
Epidemiology, chemical, cancer, mortality, ecological study, 139
Epidemiology, chlorination, ozonation, chloramination bladder cancer, colon cancer serum lipids, randomized trial, 91
Epidemiology, home dampness, respiratory dampness, indoor mould, 79
Epidemiology, non-insulin dependent diabetes, noise induced hearing loss, occupational noise exposure, andiometric, 155
Epidemiology methods, childhood leukemia, environmental exposure, nuclear reactors, radiation, 37
Exposure estimation, allotments, cadmium, health risk assessment, human nutrition, soil contamination, 281

Gaseous pollutants, landfill emissions, biogas emissions, 201 Hazard indices, natural radioactivity, construction materials, ceramics, radium equivalent activity, 243

Health policy, time-space clusters, disease clusters, epidemiology, statistical power, simulation, 173
Health risk assessment, allotments, cadmium, exposure estimation, human nutrition, soil contamination, 281
Home dampness, respiratory dampness, epidemiology, indoor mould, 79
Human nutrition, allotments, cadmium, exposure estimation, health risk assessment, soil contamination, 281
Hydrochemistry, Amazon deforestation, modelling, nutrient, climate streams, 225

Indoor mould, home dampness, respiratory dampness, epidemiology, 79
Indoor pollution inside museums, acid deposition, nitrous acid, nitric acid, diffusion techniques, 211
Inuit, blood, urine, cadmium, Canada, age groups, smoking, 167
Ionizing radiation, cancer risk, uncertainties, molecular modeling, 1
Landfill emissions, gaseous pollutants, biogas emissions, 201
Longitudinal studies, peak flow, air pollution, respiratory disease, diaries, 69

Macoma balthica, trace metals, bivalves, atomic absorption spectrometry, emission spectrometry, Westerschelde estuary, 255
Modelling, hydrochemistry, Amazon deforestation, nutrient, climate streams, 225
Molecular modeling, ionizing radiation, cancer risk, uncertainties, 1
Mortality, chemical, cancer, epidemiology, ecological study, 139

Natural radioactivity, construction materials, ceramics, radium equivalent activity, hazard indices, 243
Nitric acid, acid deposition, indoor pollution inside museums, nitrous acid, diffusion techniques, 211
Nitrous acid, acid deposition, indoor pollution inside museums, nitric acid, diffusion techniques, 211

Noise induced hearing loss, non-insulin dependent diabetes, occupational noise exposure, epidemiology, andiometric, 155
Non-insulin dependent diabetes, noise induced hearing loss, occupational noise exposure, epidemiology, andiometric, 155
Nuclear fuel, acute lymphatic leukemia, radiobiology, cancer epidemiology, nuclear power, nuclear weapons, pre-natal exposures, 13
Nuclear installation, childhood leukaemia, cluster, radiation, 9
Nuclear power, acute lymphatic leukemia, radiobiology, cancer epidemiology, nuclear fuel, nuclear weapons, pre-natal exposures, 13
Nuclear reactors, childhood leukemia, environmental exposure, epidemiology methods, radiation, 37
Nuclear weapons, acute lymphatic leukemia, radiobiology, cancer epidemiology, nuclear power, nuclear fuel, pre-natal exposures, 13
Nutrient, hydrochemistry, Amazon deforestation, modelling, climate streams, 225

Occupational noise exposure, non-insulin dependent diabetes, noise induced hearing loss, epidemiology, andiometric, 155
Ozonation, chlorination, chloramination bladder cancer, colon cancer serum lipids, epidemiology, randomized trial, 91

Peak flow, air pollution, respiratory disease, longitudinal studies, diaries, 69
Pre-natal exposures, acute lymphatic leukemia, radiobiology, cancer epidemiology, nuclear power, nuclear fuel, nuclear weapons, 13

Radiation, childhood leukaemia, cluster, nuclear installation, 9
Radiation, childhood leukemia, environmental exposure, epidemiology methods, nuclear reactors, 37
Radiobiology, acute lymphatic leukemia, cancer epidemiology, nuclear power, nuclear fuel, nuclear weapons, pre-natal exposures, 13
Radium equivalent activity, natural radioactivity, construction materials, ceramics, hazard indices, 243
Randomized trial, chlorination, ozonation, chloramination bladder cancer, colon cancer serum lipids, epidemiology, 91
Respiratory dampness, home dampness, epidemiology, indoor mould, 79
Respiratory disease, peak flow, air pollution, longitudinal studies, diaries, 69

Screening, cancer cluster, Bayes' Theorem, 187
Sign test, air pollution, chronic obstructive pulmonary disease, coal combustion, trend surface, 57
Simulation, time-space clusters, disease clusters, epidemiology, health policy, statistical power, 173
Smoking, blood, urine, cadmium, Inuit, Canada, age groups, 167
Soil contamination, allotments, cadmium, exposure estimation, health risk assessment, human nutrition, 281
Statistical power, time-space clusters, disease clusters, epidemiology, health policy, simulation, 173

Time-space clusters, disease clusters, epidemiology, health policy, statistical power, simulation, 173
Trace metals, bivalves, atomic absorption spectrometry, emission spectrometry, *Macoma balthica*, Westerschelde estuary, 255
Trend surface, air pollution, chronic obstructive pulmonary disease, coal combustion, sign test, 57

Uncertainties, ionizing radiation, cancer risk, molecular modeling, 1
Urine, blood, cadmium, Inuit, Canada, age groups, smoking, 167

Westerschelde estuary, trace metals, bivalves, atomic absorption spectrometry, emission spectrometry, *Macoma balthica*, 255
